[“Pizzagate”: How 4Chan Uncovered the Sick World of Washington’s Occult Elite](#) This article only contains some of the findings uncovered by ‘private investigators’ online. What has been exposed is, most likely, only the tip of the iceberg of a huge, complex network that has many ramifications. Each thread could probably be investigated further and lead to even more disturbing facts connecting even more high-powered individuals. Going through the material of this article is a difficult and painful process, but it exposes the true mind-state and philosophy of the occult elite. They publicly celebrate a specific culture of death, abuse and dehumanization through their art and events, leaving us to only speculate about what they do behind closed doors. The symbolism in the above images is in perfect accordance with the occult elite’s culture that I have been describing on Vigilant Citizen for years. The “Pizzagate” investigation reveals, at best, the disturbing culture of the elite and, at worst, an all-out child trafficking ring. And don’t believe that only Democrats are into this. This is the true culture of the occult elite, a circle of powerful people who operate far above political parties, and far above the law.
